UNIQUE SELLING POINTS (USPs)

- Brass material reflects the highest quality of product
- 2 special colours to make a major premium impact and differentiate from others.
(Twilight gold, Estelle black)
- Water temperature adjustment technology embedded in thermostat enables the temperature not to rise above 38 Celsius which may cause harmfulness to end-users.
- Water flow is silky smooth including the directions of water flow from hand and head showers are ergonomically comfortable to maximize the highest level of comfort for end-users.
